Creating Extraordinary Impact
entrepreneur • speaker • consultant

IMPACT
A Crash Course in Leadership

Introduction

Let me begin with a few questions –

Do you have problems that show up without warning?

Have you ever felt overwhelmed? Overworked? Or stressed out?

Maybe you've even said, "I feel like I've been hit by a truck!"

If you answered "yes" to any of those questions, then you are in the right place!

Our speaker today is an entrepreneur, innovator and entertainer whose work has educated and inspired thousands of people throughout North America and beyond.

As the founder of a unique entertainment, consulting and design company, she produced winning smiles, lasting memories and loyal clients at fairs, festivals and corporate events. She also invented and patented the world's only play-based hand washing system – but that's another story. In her own words she, "served on boards, won awards, and drove big Fords!"

Nowadays when not working, she can be found crushing her husband at cribbage, impressing her children with profound wisdom, or dreaming of perfect powder days because 'winter is coming.' Okay, one of those is true.
